Can you believe what some children have to face as they grow up? In the past year alone, we've helped almost one million children stay in school and choose success. But there are millions more who need your help. We're *Communities In Schools* and we were named one of the "100 non-profits most likely to save the world" by *Worth Magazine*. Now that you know who we are, just think what we can accomplish with your help.
